

The AIG Advantage

Our Offering

- Marine Cargo insurance provides “All Risks” protection for goods and commodities involved in the supply chain, from a warehouse at point of origin to a warehouse at a destination. Coverage is on a worldwide basis, except to ports or places subject to sanctions or where it is unlawful to ship.* We also provide tailored solutions for Captive Insurance Programs and fronting requirements.
- Our experienced loss control engineers – Marine Risk Consulting (MRC), provide efficient integrated solutions towards risk minimization. Our services are characterized by proactive loss prevention, loss analysis, effective communication and serving as a thought-leading knowledge centre for our marine clients.
- We provide support to our clients in conducting captive feasibility studies, operational reviews, accounting and in-domicile regulatory filings. This offers clients many of the benefits of standalone captives, without the full operating costs, through “rent-a-captive” facilities in Vermont and Bermuda.
- We can provide numerous extensions to coverage such as pure domestic movements, warehouse, storage, or consolidation and deconsolidation risks.

Local Expertise & Global Reach

- Local coverage across 215+ countries and jurisdictions gives a consistent, seamless experience, coupled with an in-depth understanding of local laws, regulations and markets. When the terms and conditions of a local admitted policy are restricted by local regulations, the Master policy’s Differences in Conditions (DIC) or Differences in Limits (DIL) coverages ensure global continuity in coverage, terms, and limits.
- Customers benefit from the Marine Team’s in-depth experience of best practices and local knowledge. Our programs are tailor-made and structured to comply with local legislation and local liability regimes.
- Our global networks of specialist adjusters understand the complex legal landscape. Our knowledge and understanding of applicable local legislation and international conventions enable us to resolve claims quickly and maximise recoveries, delivering tremendous benefits to our clients.
- Through segmenting our claims by value and complexity, our clients benefit from our network of specialised adjusters with the right expertise to manage their claims and provide a timely and technically accurate claims resolution.
